DIESEL

DENIM

BIENVENIDOS A MIAMI

SPRING/SUMMER 2017

DENIM

For summer, Diesel expresses its upscale skills in the denim wash business with a range of bleached styles which are juxtaposed to a series of whites. These are balanced by the vivacious attitude of the colorful designs showing cuffs in contrasting tones.

From essentials to trendy pieces, the “Modern & Contemporary” range includes edgy silhouettes, spanning from flat front, cropped styles for men to skin-tight women’s options.

Classic silhouettes with a vintage soul are combined with innovative treatments and seasonal washes in the “D.N.A. Heritage” collection.

A sartorial approach updated by a high-tech spirit characterizes the “Diesel Denim Atelier” range, while the most refined customers have the chance to personalize their jeans with frayed hems and contrasting stitching thanks to the C program.

Diesel’s expertise reached its highest level with “Slow Indigo”, a men’s collection of denim styles manufactured and washed in Italy with the most traditional and sophisticated techniques. Crafted from the best premium denim fabrics, these jeans require a long production time to obtain their luxurious, distinctive look.

New men’s styles are introduced for summer. These include “Thommer,” a skinny-leg option coming in a regular slim fit which shows a modern, sleek silhouette, as well as “Rhial,” a fashionable drop-crotch pant with a cropped carrot leg. Diesel female customers will be able to choose among a range of new styles for summer. “Slandy” is a skinny style crafted from super soft stretch denim guaranteeing an uplifting effect on the back.

The “Joggjeans” categories, now featuring embroideries, mixed materials, contrasting stitching and prints, is expanded with the addition of the hyper comfortable “New Chino, which is available in a wide range of washes.

Enjoy the trip
